Money Will Be Used To Interest Voters of United States in State or National Referenda.

27,000,000 VOTERS WILL GET LETTERS

Captain William H. Stayton Outlines Plans at Dinner to 297 Persons at Union League Club.

New York, November 28. (AP)—Plans for raising a \$3,000,000 fund to interest voters in national or state referenda on repealing or changing the eighteenth amendment were outlined tonight at a dinner to 297 persons at the Union League club by Captain William H. Stayton, chairman of the Association Against the Prohibition Amendment.

While the dinner was a private affair, to which newspapermen were not admitted, Captain Stayton told reporters the gist of his plan at his hotel before the dinner began. He said the fund would be used to send letters to 27,000,000 voters in the next four years in a campaign designed to learn the attitude of the people on the question.

No Wet Plan.  
Captain Stayton, in his talk to newspapermen, said that the association would not seek a wet plank in the platforms of either the republican or democratic parties in their national conventions. He said he favored the incorporation of a national referendum plank based on the theory that it was the duty of a political party to find out what the people wanted.

If such a plan could be obtained in the national party platforms, he said, the association believes that the state referendum plan should be carried out. The people, he contended, were entitled to be consulted directly before constitutional changes, such as the eighteenth amendment, were put through.

The dinner was sponsored by four persons, headed by George K. Wightman, New York mail manufacturer, who previous to the gathering said that it was of no public or political significance. The names of the other sponsors were not divulged.

More Funds Needed.  
Captain Stayton said that he had addressed a similar group on the subject about a year ago and that he since had spoken to meetings in half a dozen clubs in New York city. Funds had been raised for carrying on the association's plans, he said, but more money was needed now, with a presidential campaign in the offing. He said it was planned to send two letters to 10,000,000 voters next year at an estimated cost of ten cents a letter.

Captain Stayton said his address was in reality an accounting of his stewardship during the last year. He declined to reveal details of this year's work.

The names of those invited to the dinner were withheld. It is known, however, that among those invited were James W. Wadsworth, Jr., former United States senator from New York; Dr. Nicholas Murray Butler, president of Columbia university; United States Senator Walter E. Edge of New Jersey, and John Phillip Hill, former congressman from Maryland.

Wadsworth to Seek Place.  
Wadsworth let it be known, in advance of the dinner, that he expected to be a candidate for delegate at large to the next republican national convention.

"I trust that many other delegates will be chosen," he said, "who believe that the prohibition amendment should be wiped out or modified. I hope the national convention will meet the issue. It is here. It is everywhere. I for one propose to meet it."  
"My attitude is unchanged. It is the same as when I ran for the senate last year. (Wadsworth was defeated by Robert P. Wager, democrat, in that election).  
"I am speaking now merely as a republican, but the issue will be the same in the convention if I have anything to say about it."

# POLAND SCORED FOR ATTITUDE TO LITHUANIA

Premier Waldemaras Complains of What He Calls "Intimidatory and Provocative Actions."

DESIRE FOR WAR DENIED BY POLES

Leaders of Both Nations Will Attend Meeting of League of Nations Council in Geneva.

Kovno, Lithuania, November 28. (AP)—Augustine Waldemaras, Lithuanian premier, is preparing to journey to Geneva to submit Lithuania's case against Poland to the League of Nations. He will reach Geneva December 5, when the vexed Lithuanian-Polish question comes before the council.

"We are faced by a situation so difficult and representing such widely divergent viewpoints," he informed the Associated Press correspondent today, "that it almost precludes the possibility of a complete solution, but we hope to find some basis from which it will be possible to proceed step by step."

M. Waldemaras was president of the Lithuanian delegation at Versailles, the first Lithuanian premier and Lithuanian delegate to the first assembly of the League of Nations.

Intimidation Charged.  
To the correspondent he complained bitterly of what he termed "intimidatory and provocative actions" by Poland on the present line of demarcation, which, he said, no Lithuanian today will dignify by the name of frontier.

"The recurrence of intervals of rumors in the foreign press that bands are operating on the demarcation line and that the Lithuanian army is demoralized points to a set campaign against us with malevolent intent," he asserted.

"This cannot go on forever, for a hostile atmosphere is created, poisoning the air around just as in the case of Alsace-Lorraine, which set the world ablaze."

"It is inconceivable that Poland should think of seizing Lithuania by force of arms, seeing that Poland is on the League of Nations council and that Lithuania is also a member. Our country has little over 2,000,000 population, small as compared to Poland's 37,000,000—but in such an event the whole nation would sink its differences and stand shoulder to shoulder, and I know that the peasantry would fly to arms to repel the invader."

Poles Use Emigrants.  
"Emigrants," M. Waldemaras considers a misnomer for refugees from justice, who, the premier asserted, are often put by the Poles in Lithuanian uniforms to make them appear army deserters.

"There has been no desertions," he declared, "neither has there been any fighting by so-called bands, although the presence of these malcontents naturally is always a potential danger."

His negotiations with the different parties to form a coalition government, the premier said, still were proceeding, not so quickly as he wished, but still they were making progress. He scouted all rumors of his impending resignation and refused to cede that Poland intended to precipitate a war.

# RULING ON SANITY WON BY REMUS

Decision of Court Opens Doors for Sensational Testimony; Defendant Will Call Dodge Today.

Cincinnati, November 28. (AP)—Lay testimony was accepted in George Remus' murder trial today as having established that his mind was diseased prior to last October 6, when he shot his wife, Imogene.

The ruling by Judge Chester R. Shook threw wide the portals for introduction of a vast quantity of evidence touching upon the alleged causes of the aberration. Remus' sole plea is transitory maniacal insanity. He avers he was driven mad by misconduct of his wife with Franklin L. Dodge, Jr., former agent of the federal department of justice.

Dodge Subpoenaed.

Dodge obtained the conviction which wrecked the gigantic illicit enterprise Remus had evolved from a legally trained mind, and sent him to the Atlanta Federal penitentiary as a violator of the prohibition law. He was subpoenaed today as a defense witness. He previously had been summoned for the prosecution, but was held for use in rebuttal.

After four lay witnesses had testified they had formed opinions that Remus was insane, the court expressed satisfaction with the showing and the trial was opened to all the sensational testimony it had been expected to produce.

Two lay witnesses testified last Saturday that they regarded Remus as

# "Lady Godiva's" Days In Georgia Recalled

WAS ONCE MEMBER OF GAINESVILLE SET

When the artists of Chicago were seeking far and wide for a woman of infinite charm, golden tresses—some one to fulfill their conception of the tradition of beauty of Lady Godiva, they picked Miss Rosalind Hightower, a Georgia girl.

Miss Hightower, a former student of Brenau college, Gainesville, Ga., is a striking blonde of medium height and a Venus in figure. In private life she is an independent young artist, Mrs. Melvyn Kesselberg, the mother of a small child.

Born in Georgia, Miss Hightower moved with her parents to St. Louis but returned to her native state to study voice at Brenau college, although she was a natural-born artist. Her work was recognized and she made her first sale of a portrait to a Detroit newspaper, for which she received \$65. Since that time her art has been in demand and has won the praise of many critics.

She spent approximately two years in Gainesville while attending college at the home of her grandmother, Mrs. William Hosch, prominent Gainesville citizen, and was a popular member of the younger society set. Upon her return to the city on brief visits she was fêted at small social events. Her mother was Miss Eula Hosch before her marriage to Mr. Hightower.

The entertainment committee chose Miss Hightower from a field of many beautiful women to impersonate the lovely and unattired lady of Coventry at the annual Arts ball in Chicago.

Miss Hightower eagerly responded to their call and flew to that city in a plane from Detroit.

More than 3,000 visitors attended the ball and Lady Godiva was portrayed in a gold frame, 10 by 12 feet, said to have cost approximately \$10,000. They were engrossed with Lady Godiva herself but to their utter astonishment Lady Godiva was a figure in wax and not Miss Hightower.

The curtain dropped together for a few second, however, and when they parted again, the wax figure had disappeared. In its place stood Miss Hightower, clad in a gossamer material and posed so nearly like the paragon that many did not know the difference.

MISS ROSALIND HIGHTOWER.

# INQUIRY CLEARS STAFF OF GRADY FOR UNVEILING

Complete Exoneration of Negligence Charges Given Doctors in Case of Injured Girl.

Complete exoneration of Grady hospital physicians and internes who treated Gertrude Allen, 4, of 224 Woodward avenue, S. W., was contained in a report filed Monday night by a special subcommittee from the executive committee of Grady hospital as a result of an investigation ordered by the hospitals and charities committee of city council.

The report of the committee, which was offered by Dr. Newdight Owens and Dr. C. C. Aven in the name of the executive committee, was received and filed. The report contained a detailed history of the case, and showed that although the child was considered by physicians to be able to go home, she was treated in a hospital ward for 12 days before being dismissed.

Another outstanding feature of the report was that the patient alluded to several times in the report as having been gotten in the office of the average physician, who, the re-

# Ex - Wife of 3 Millionaires GOES TO PRISON FOR THEFT

Salinas, Calif., November 28. (AP)—Mrs. Genevieve Paddelford, who presided over the homes of three millionaires besides ruling a palace on the Nile, today was sentenced to prison after conviction of theft charges. Several hours after she was sentenced, she was started to the San Quentin prison in an ambulance.

Mrs. Paddelford, who is known virtually around the world as "the international adventuress," will spend some, if not all, of the next ten years in prison. She received an indeterminate sentence of from one year to that maximum when convicted on the charges brought by a Carmel shopkeeper that she illegally acquired goods valued at \$225.

Mrs. Paddelford's flitting from country to country has taken her into most of the old world cities—even into some of their prisons. Her name has been written into court records in the form of larceny warrants and had check charges, not to speak of divorces.

She gained a place in history when she married George E. Paddelford, of Los Angeles. Notoriety, however, was hers in volume when in 1922 she became embroiled in domestic difficulties. She charged desertion while he countered with allegations concerning her alleged European jail escapades.

They were finally divorced. Reports had it then that Paddelford had settled a large sum of money on his wife.

# TEN WITNESSES IN LILLIENDAHL CASE ARE HEARD

Jury Is Selected Quickly and Defendants Are Well on Way to Conviction or Acquittal.

STATE ASSAILS STORY OF WIDOW

Witnesses Show That They Regarded Story of Mrs. Lilliendahl With Suspicion From Start.

BY SAM LOVE.  
Mayes Landing, N. J., November 28. (United News).—New Jersey's latest triangle murder trial moved so rapidly on its first day that Mrs. Margaret Lilliendahl and her co-defendant, Willis Beach, already are well on their way toward acquittal or conviction.

Despite the unwelcome crowds and the carnival atmosphere surrounding the little red brick courthouse, Supreme Court Justice Luther A. Campbell insisted on speed within.

When court had adjourned for the day, ten witnesses had contributed their bits to the circumstantial framework by which Prosecutor S. Cameron Hinkle hopes to prove that the defendants murdered the aged Dr. William Lilliendahl to clear the way for their own romance.

There was even time, before adjournment, for a characteristic wrangle between the prosecutor and Robert F. McCarter, former Hall-Mills counsel, over the finger prints found on the car in which Dr. Lilliendahl was shot last September 15.

The state seemed near the point where the linen of the alleged love affair between Beach, 57, and Mrs. Lilliendahl, 42, could flap from the line of evidence.

State Opens.  
Prosecutor Hinkle in his opening statement sprang the day's surprise when he said:

"Willis Beach has already confessed this crime. And the state will call as witness the man to whom he confessed."

The defendants and their lawyers were plainly shocked at the prosecutor's cool words.

Hinkle informed the jury that the unnamed witness had been appealed to by Beach for money "for a getaway."

"Hill Beach made that request," Hinkle said, enjoying the effect of his words, "no one had ever connected him with the killing of Dr. Lilliendahl."

The jury of five women and seven men was accepted from a "blue ribbon" panel of 100 in one hour and 15 minutes—probably a record for a major murder trial.

Juror No. 6, Mrs. Ella M. Deltrich, of Atlantic City, begged to be excused. She declared herself opposed to capital punishment, but the court was unswayed. She could not overcome her scruples and she was accepted, almost in tears.

Defendant Smiles.

Mrs. Lilliendahl smiled and her and the other jurors smilingly. She smiled.

# MERGER PLANNED OF COTTON MILLS

75 Yarn Manufacturing Plants in Two Carolinas May Be Consolidated in Near Future.

Charlotte, N. C., November 28. (AP)—A movement to organize a heavily capitalized holding corporation to effect the merger of approximately 75 cotton yarn manufacturing plants of the two Carolinas is being carried forward with the assistance of New York financial interests, The Charlotte News today said it had been informed.

E. C. Ledard, formerly a cotton manufacturer of Tupelo, Miss., is attempting the organization of the corporation and he is backed by Flint & Co., New York financiers, it was said. Ledard has been working on the proposition in this section for three months, The News said.

The proposed capitalization of the holding corporation will be approximately \$50,000,000, according to some reports but other reports placed the amount at a sum between \$25,000,000 and \$15,000,000.

Some doubt was expressed among local bankers and mill operators that the movement as now planned will be successful, the newspaper said, though the possibility was admitted that a consolidation involving a relatively small number of mills may grow out of the proposal.

Ninety-day options at the mill owners' prices are being obtained by promoters of the proposed consolidation, according to The News. The options were said to be subject to appraisals which later would be made by engineers selected by the promoters.

# Government Bars Delay in Sinclair And Burns Cases

CIVIC CLUB HEADS URGE EARLY START ON NEW TERMINAL

West and Westmoreland Think Plans for Structure Should Be Laid in Near Future.

Plans for construction of a new union station for Atlanta should be laid while construction of the Pryor street and Central avenue viaducts is in progress, in accordance with an opinion Monday of R. Graham West, president of the Civic club, and John L. Westmoreland, president of the Atlanta Kiwanis club.

These statements followed interviews with James B. Hill, president of the N. C. & St. L. railroad, in which Mr. Hill was quoted as saying that plans for improved terminal facilities for Atlanta are in an embryonic stage, but that a definite program must await completion of the viaduct improvements.

Mr. Hill was quoted in an interview Monday as saying that terminal facilities at the present site are limited to a large degree; that the roads have a right to relocate the station just so they turn it over to the state at the expiration of the lease in as good condition as it was when it was leased, and that plans are now being considered by railway executives looking towards providing adequate terminal facilities here.

The present station never has been a source of complete satisfaction although it has been serving the road since the property was leased from the state many years ago. Mr. Hill is

To Proffer 600 Acres for Use in Forestry Research Work.

Governor L. G. Hardman Tuesday will make an offer to the United States forestry department to present that department with a tract of 600 acres of land which would be used for the development of research work in connection with the growing of valuable hardwood timbers, the governor stated Monday afternoon.

The proffer of this land will be made at a meeting of the state forestry board to be held Tuesday in the office of the governor and the land will be given to the federal government, provided the government will appropriate a sufficient amount of money to carry on the development work.

Under the proposed plan six kinds of trees would be planted for experimental purposes, Governor Hardman said.

# Agnes Scott Debaters Win Over British

Trio of Girls Rout Invaders on Outlawing of War.

Decatur, Ga., November 28. (Special).—Three war-like maids of Agnes Scott routed as many pacifist male Britons in a furious battle of words and clash of wits in the college gym here tonight.

The occasion was a debate between a team representing the National Union of Students, an English university organization, now touring the country, and a team selected from the debating society of the local woman's college. The Englishmen debate again Monday night at Emory. The invaders uphold the affirmative of the resolution: "That the Only Effective Attitude Towards War Is Uncompromising Pacifism," but at the conclusion of the debate had failed to convince a majority of the audience that pacifism is not the better plan. According to the custom in England, the decision was rendered by a vote of the audience on the merits of the question.

The arguments of the Britons sparkled with humor and they referred effectively to the unfortified border between Canada and the United States, calling it "the far-flung bottle line." They poked fun at their opponents by

District Attorney Forecasts Plea That Defendants Are Being Put in Double Jeopardy.

CLASH EXPECTED AT COURT HEARING

Judge and District Attorney Will Insist That Contempt Cases Be Disposed of at Once.

Washington, November 28. (AP)—Indications that Harry F. Sinclair, William J. Burns and their four associates, cited for criminal contempt of court for their part in the Fall-Sinclair jury surveillance scandal, would seek delay on the ground of double jeopardy were met today with the blunt announcement by District Attorney Gordon that no delay in the hearing would be permitted.

In granting the application of the district attorney that he issue a rule citing the wealthy oil man, his associates and the detectives for contempt in shadowing the trial jury, Justice Frederick L. Siddons, in the District of Columbia supreme court, insisted that the hearing be held at the earliest possible moment. This desire, together with the hope of the district attorney that the hearing be completed before January 1, forecast a clash over the subject at the opening of the hearing next Monday.

Burns and Son Served.

Burns, his son, W. Sherman, founder and head, respectively, of the Burns Detective agency, and C. L. Weisich, their Baltimore manager, were served here today with the citation in the office of their attorney, Charles A. Douglas. At that time Douglas indicated that the respondents would contend that they were being put in double jeopardy because the grand jury investigating the government's charges of tampering with the trial jury had not completed its work.

Douglas also indicated that the counsel for the respondents would ask the court whether any presentments had been returned against any of the accused and would request Justice Siddons to have the case heard by the full bench. Granting of such a request, however, would be entirely at Justice Siddons' personal desire.

Stipely Held Back.

The reply of the detectives in the petition of the district attorney charging that Sinclair sent Henry Mason Day and Sheldon Clark to Washington to hire Burns detectives to to "spy upon, bribe and otherwise influence the trial jurors," will not be presented in court until the hearing starts, Douglas said.

A petition presented to Justice Siddons by Edward J. Kidwell, the junior who is alleged to have talked about the case, asking to be made a party to the contempt proceedings, was taken under advisement by the justice. When the contempt proceedings were started against Sinclair, his associates and the detectives, Justice Siddons asked that Kidwell be included in the petition, but the actual filing of the papers had not been made.

In filing any contempt proceedings against Kidwell, the plan of the district attorney to keep them separate from the Sinclair-Burns hearing, as he contends they were not the same actions.

# TRIAL OF 2 BANKERS SET FOR DECEMBER 7

Trials of J. S. Slicer, president, and T. J. Norman, vice president, of the defunct Colonial Trust company, jointly indicted on eighteen charges returned in connection with the failure of the trust company, were set Monday for hearing on December 7 before Judge G. H. Howard in Fulton superior court.

The trust company failed on September 29, 1926, and the Fulton county grand jury conducted an investigation into its affairs which resulted in the indictment of the officials on charges of larceny after trust, allowing a bank to become fraudulently insolvent, a misdemeanor in reporting unearned dividends, forgery, false entry, embezzlement, concealing a loan, and receiving a commission on a loan made at the bank.

The defendants will be represented by the law firms of Hewlett and Dennis and Colquhoun and Conyers, and Attorney Paul S. Etheridge, Solicitor General John A. Borkin and Assistant Solicitor John H. Hudson will conduct the prosecution.

# REDDING'S TRIAL ON MURDER BEGUN

Manchester, Ga., November 28.—(Special.)—J. E. Collier, superintendent of the Manchester street department, took the witness chair in Coweta superior court today and told how Marshall Redding, negro, had shot and killed W. H. Callaway, chief of Manchester police, last September 17.

Shortly thereafter the state rested, so that tonight found Redding indicted and only several hours from conviction or acquittal within one day.

A special term of the Coweta county grand jury was convened by Judge C. E. Roop this morning for the purpose of investigating the charge of murder against the negro. The jurors indicted him on a murder charge, and the trial was begun immediately. The defense was half through tonight at adjournment, and only a few witnesses remain to be examined. The defense will seek to prove that Redding killed Callaway in defense of his home, and to prove that the police official was shot as he attempted to administer justice to Redding's wife.

The street superintendent, however, today testified that Redding, fired without warning, and fired as Chief Callaway was about to place the Redding woman under arrest on a disorderly conduct charge.

Collier said that he had accompanied Callaway to the Redding cabin in search of Redding's wife, who had deserted the street cleaning corps of Manchester, while serving a sentence to that work given him by the city court.

# First New Ford To Appear Here On Next Friday

The first new Ford car will make its appearance in Atlanta next Friday, when the long-awaited Model A will be shown at the local branch of the Ford Motor company. On this same date the cars will be shown at factory branches throughout the country, it was announced, and local dealers will have on display in their showrooms photographs and descriptive charts which will tell the complete story of the new cars.

"Four-wheel brakes, standard selective gear transmission, extraordinary acceleration, a speed of 60 miles an hour and more, a practically vibrationless engine, and unusual beauty in line and color are among the outstanding features of the new Ford cars," Henry T. Ford's statement said. "The generator, oiling system, steering gear and rear axle are of new Ford design. Its 40 h. p. engine will run at 2000 r. p. m. and it runs 20 to 30 miles an hour on a gallon of gasoline."

"For months factory models of the new car have been undergoing severe performance tests in and around Detroit. One of these factory models recently made a road run of 120 miles in 124 minutes. This run was made on an ordinary paved highway near Detroit."

Local dealers, in commenting on the forthcoming show, said their first view of the new Ford car had substantiated Henry T. Ford's statement that "there is nothing quite like it in quality and price."

**3 LYONS OFFICIALS MINUS OPPOSITION IN DEC. 14 BALLOT**

# CAUCUS OF G. O. P. SENATORS CALLED

Washington, November 28.—(AP)—A call for a conference of senate Republicans for next Friday was issued today by Senator Warren, of Wyoming, oldest member of the senate, both in point of years and of service.

Warren acted because Senator Curtis, of Kansas, the party leader, and Senator Watson, of Indiana, assistant leader, are both in the status of senators-elect and consequently not strictly members of the senate until after they take the oath next Monday.

At the conference a floor leader and assistant leaders and a conference secretary will be selected and the committee on committees named to rearrange memberships on the standing committees of the senate. Also candidates for president pro-tempore and other senate offices may be selected with the probabilities that George Moses, of New Hampshire, also now a senator-elect will be nominated to succeed himself as president pro-tempore.

**School nurse says all girls should know this**

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

**Not Like Medicine**  
Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine. Perfected by the famous Chemical Products Division of the Standard Oil Company of New Jersey. Look for the Nujol bottle with the label on the back that you can read right through the bottle. —(adv.)

People with whom Pierce-Arrow is a tradition, and there are thousands, are delightedly surprised by the ultra-modishness of the new car—and by its moderate price.

# The things we treasure are not thought of in terms of price

Stop before the finest shop you know, and what do you see that you want most? Isn't it something that expresses the artistry of human hands wrought upon worthy materials—something which suggests enduring beauty and serviceability?

It may be a fine piece of furniture—or a rare rug from the Orient—or an exquisite bit of jewelry. But, whatever it is, you will want it because of its price-less perfections.

And that's precisely the appeal of Pierce-Arrow—particularly the new Pierce-Arrow, which besides is as smart as a Parisian mode.

## WIFE OF FLOWERS NAMED TEMPORARY ADMINISTRATRIX

Willie Mae Flowers, widow of Theodore "Tiger" Flowers, negro pugilist who died recently, was Monday appointed temporary administratrix of the estate of her husband by Judge Thomas H. Jeffries, Fulton county ordinary.

She was given the authority to carry on the business of the estate which is estimated to have a value of more than \$120,000 but was barred from disposing of any of the property pending hearing on the petition to break the will.

The appointment was made by the ordinary on the application of Attorney H. A. Allen, in behalf of Willie Mae Flowers, and the administratrix posted bond of \$20,000.

The will provided that a large part of the estate was established as a trust fund for the pugilist's daughter, Verna Lee Flowers, and Walk Miller, Tiger's manager, was named executor and trustee of the trust fund. The residue of the estate was bequeathed to Willie Mae Flowers.

## Half a Million Veterans Soldiers, Sailors and Marines Urged To Get Their Shy Half a Billion Dollars

Remember that cry in company street, barfacks or aboard ship, you doughbors, gobs and gimbles? Probably you can recall, also, that hard-boiled top kiks and jimmy-legs at times used that same cry to break out police details and work parties. 'Twas a shameful way to take advantage of bunk-fattening soldiers and sailors.

Well, men of 1917-1918, that cry is sounding again—and for the last time for former service men who have dropped pieces and packs for a life in the great U. S. S. Outside. It's no police or work party, either. It's your last chance to cash in on your service in the world war.

Tenle Sam says that more than 500,000 of you—former soldiers, sailors and marines are creditors of his to the extent of half a billion dollars. It's yours for the asking, and no clicking of heels together or snapping into it to get it.

That half a billion dollars was earned on destroyers, in trenches and on rifle ranges and parade grounds. You

half a million former service men can shoot a seven for a new pair of shoes or hit a black jack and get on an average of \$1,000 per each.

But you must do it before January 1, 1928. The United States army will help you and for the purpose has opened an office at 805 Throver building to aid all veterans get their share of this \$500,000,000.

It's your federal adjusted compensation "bonus" and blanks, addressed envelopes and detailed instructions, is available for your use. Three million, one hundred thousand veterans have made their applications, but 40,000 men have failed to return applications which were sent back for corrections and the other 500,000 of you have neglected to make application altogether.

Any honorably discharged veteran who served in the army, navy or marine corps for more than 60 days between April 5, 1917 and July 1, 1919, providing he began his service before the armistice, is eligible for the benefits of the adjusted compensation law. Are you going to get yours, buddy?

## CHRISTIAN CHURCHES TO MEET THURSDAY

A one-day convention of the Christian churches of Atlanta and other sections of north Georgia will be held here Thursday, simultaneously with a series of 150 similar meetings in all parts of the United States, it was announced Monday. The Atlanta gathering will be held at the First Christian church, corner of South Pryor street and Trinity avenue.

The Rev. C. R. Stauffer, pastor of the First Christian church, is chairman of the promotional committee, while the leader of the convention is Dr. Royal J. Day, noted missionary who has carried the gospel into central Africa for many years. Others who will participate in the convention activities are Mrs. M. M. Horn, of St. Louis, Mo., woman's organization department; the Rev. N. K. McGowan, of Lexington, Ky.; Thomas Moore, superintendent of the Christian Sunday school at East Point, who will be toastmaster at the men's banquet; and Rev. Pope of Decatur, chairman of the banquet committee.

There will be morning and afternoon sessions, the convention opening at 10 o'clock Thursday morning. A men's banquet and a women's banquet will be held at 6:30 o'clock in the evening, women from the First Christian church serving.

## W. J. SEARS SEES DEMOCRATIC WIN

The democratic party has strong chances of success in the next national election and if the democratic leaders see to it that the nominee is named by the democrats and not suggested by the republican party a victory can be won in 1928, in the opinion of Congressman W. J. Sears of the fourth Florida district, who is in Atlanta on a short visit.

"If the democrats get down to harmony and select a nominee who is not tainted with any 'isms' and the party makes its fight on real old-fashioned Jeffersonian principles of democracy we can win in the next election," he said.

Congressman Sears is visiting his nephew, Norman Harper, 830 Stewart avenue, and his sister, Mrs. J. W. Sears, of Highland avenue. He is on his way to Washington to be present at the opening of the next regular session of congress in December.

"I am amazed at the rapid growth of Atlanta," Congressman Sears said. "In my trips through Georgia I see many marks of progress and can see some amazing developments under way here."

Congressman Sears said the whole south is coming into its own and that the next decade will see this part of the country restored to its high position the south held prior to the war between the states.

"The south is coming and coming fast," Congressman Sears declared. "Florida is doing all right, too, and is rapidly recovering from the ill effects of recent booming. We have a good state down there, with its glorious climate, and we are not trying to grow great at the expense of Georgia or any other state. We are not fighting California or any other section of the country but are going ahead with steady progress."

At the coming session of congress there should be some real tax reduction legislation passed, in the opinion of Congressman Sears. The reduction of the corporation income tax and also believes the Federal inheritance tax act should be repealed.

Congressman Sears was born at Smithville, Ga., but has lived in Florida for almost 50 years. His district runs from Jacksonville to Key West.

## KENWAY NEW DEVOE DISTRICT MANAGER

Creation of a new southern district, including branch points at Dallas, Houston, Shreveport, New Orleans, Savannah, Jacksonville and Atlanta—with district headquarters located here—was announced Monday by the Devoe & Reynolds company, Inc., makers of paints, varnishes, brushes, artists' materials and other products.

Ivor Kenway, widely known in Atlanta, will be in charge of this district. It was formerly stationed here with the Devoe & Reynolds company, being transferred to Chicago about a year ago. Both he and Mrs. Kenway have made many friends here and their return to Atlanta will be widely welcomed.

Atlanta was chosen as southern headquarters for the company because of its progressive spirit, its central location and numerous commercial advantages, it was stated.

The Devoe & Reynolds company is the oldest paint manufacturers in the United States, having been founded in New York city in 1754, at a time when New York's population was something less than 6,000 and when the revolutionary war was still some 22 years in the future. While the population of New York was growing from 6,020 to something like 9,000,000, Devoe was also growing until now it covers all sections of the United States, and in addition handles a considerable volume of export business. It is not only the oldest paint manufacturer, but one of the three or four oldest concerns of any kind in the United States.

## INJURED METHODIST DELEGATE IMPROVED

## FORMER MASONIC OFFICERS TO DINE AT TEMPLE TODAY

The Masters, Wardens and Secretaries association of Masonic lodges in Fulton and DeKalb counties, of which Judge E. D. Thomas is president, will give a banquet this evening at 6 o'clock in the dining room of Masonic temple to the past presiding officers of all of the Masonic bodies in the two counties. Acceptances up to date indicate that there will be over 450 in attendance.

James L. Mayson will act as toastmaster and Henry C. Heins will be the principal speaker of the evening.

## COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for influenza and other forms of respiratory ailments. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

## Stomach Trouble Headache and Dizziness

If your stomach is sick, you are sick all over. If you can't digest your food, you lose strength and "pep," get thin and nervous and feel as tired when you get up as when you went to bed.

For 10 years Tanlac improved the health and activity of many thousands who suffered just as you do. Here is a letter from Mrs. B. C. Fisher, of 726 Haywood Road, West Asheville, N. C.: "I suffered from nervous indigestion. No matter what I ate, gas would form and nervous headaches follow. But Tanlac quickly and completely overcame my nervous troubles and stomach weakness and I gained back my strength."

Why not let Tanlac do for you what it did for this sufferer and for thousands of others. It is marvelous to see how it relieves the most obstinate digestive troubles—relieves gas, pains in the stomach and bowels. How it restores appetite, vigor and sound sleep. Tanlac is made of roots, herbs and herbs—nature's own medicines for the sick. The cost is less than 2 cents a dose. Get a bottle from your druggist today. Your money back if it doesn't help you.

## Tanlac 52 MILLION BOTTLES USED Piles Go Quick

Without Salves or Cutting

External treatments seldom banish Piles. The cause is inside—bad circulation. The blood is stagnant, the veins flabby.

The bowel walls are weak, the parts almost dead. To quickly and safely rid yourself of piles you must free the circulation—send fresh, healthy blood to the raw, sensitive membranes. Internal treatment is one safe method. Ointments and other external treatments can't give lasting relief.

J. S. Leonhardt, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID, and tried it in hundreds of cases before he was satisfied. Now HEM-ROID is sold by druggists everywhere under guarantee. It is a harmless tablet, easy to take, and can always be found at Jacobs drug store, who will gladly refund the purchase price to any dissatisfied customer. (adv.)

Tens of thousands of thin, run-down men—yes, and women, too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong.

All such people can stop worrying and start to smile and enjoy life right now, for McCoy's Tablets, which any druggist will tell you all about, is putting flesh on hosts of skinny folks every day.

One woman, tired, weak and discouraged put on 15 pounds in five weeks and now feels fine.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty-cent boxes of McCoy's Tablets, or 2 One Dollar boxes any thin, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

# THE NEW FORD CAR

*An announcement of unusual importance  
to every automobile owner*

"NINETEEN years ago we made and sold the first Model T Ford car. In announcing it to the public we said:

*"We will build a motor car for the great multitude. It will be large enough for the family, but small enough for the individual to run and care for. It will be constructed of the best materials, by the best men to be hired, after the simplest designs modern engineering can devise. But it will be so low in price that no man making a good salary will be unable to own one."*

"If I were starting in business today, or asked to restate my policy, I would not change one sentence or one word of that original announcement. In plain, simple language it gives the reason for the very existence of the Ford Motor Company and explains its growth.

"IN THE last nineteen years we have made 15,000,000 Ford cars and added to the world nearly 300,000,000 mobile horse-power. Yet I do not consider the machines which bear my name simply as machines. I take them as concrete evidence of the working out of a theory of business which I hope is something more than a theory of business—a theory that looks toward making this world a better place in which to live.

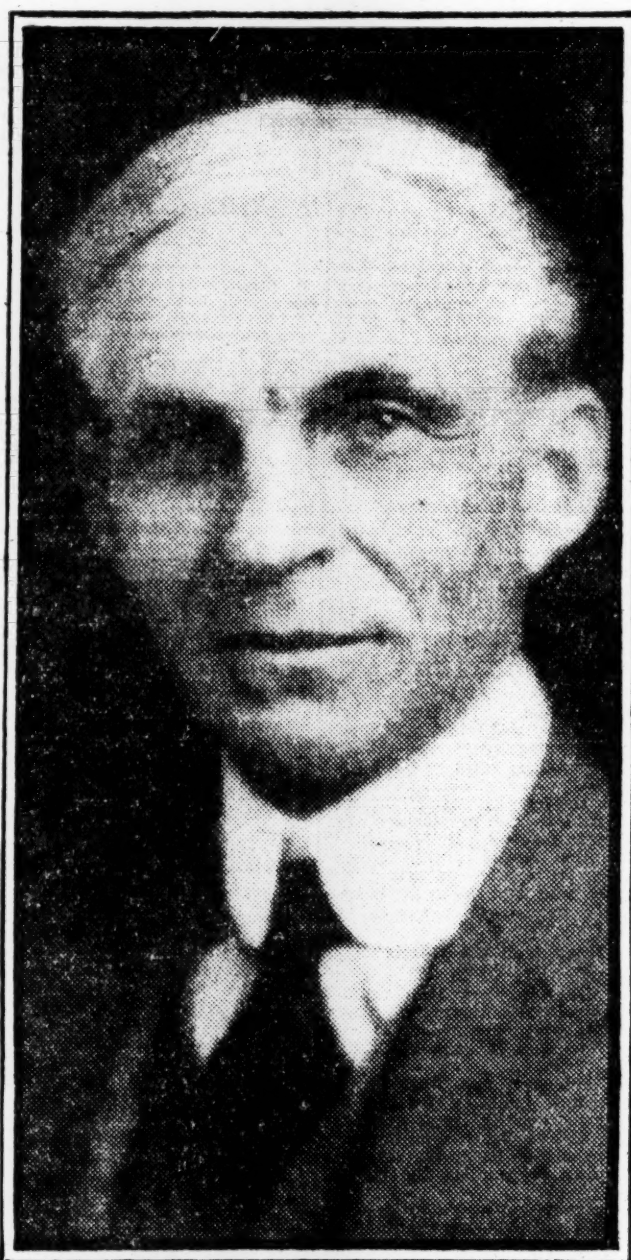

"The Model T Ford car was a pioneer. There was no conscious public need of motor cars when we first conceived it. There were few good roads and only the adventurous few could be induced to buy an automobile.

"The Ford car blazed the way for the motor industry and started the movement for good roads. It broke down the barriers of time and distance and helped to place education within the reach of all. It gave people more leisure. It helped people everywhere to do more and better work in less time and enjoy doing it. It did a great deal, I am sure, to promote the growth and progress of this country.

"We are still proud of the record of the Model T Ford car. If we were not, we would not have continued to manufacture it so long. But 1927 is not 1908. It is not 1915. It is not even 1926.

*We have built a new car to meet  
modern conditions*

"We realize that conditions in this country have so greatly changed in the last few years that further refinement in motor car construction is desirable. So we have built a new

car. To put it simply—we have built a new and different Ford to meet new and different conditions.

"We believe the new Ford car, which will be officially announced on Friday of this week, is as great an improvement in motor car building as the Model T Ford was in 1908.

*Smart new low lines and  
beautiful colors*

"The new Ford is more than a car for the requirements of today. It goes farther than that. It anticipates the needs of 1928, of 1929, of 1930.

"The new Ford car is radically different from Model T. Yet the basic Ford principles of economy of production and quality of product have been retained. There is nothing quite like the new Ford anywhere in quality and price.

"The new Ford has exceptional beauty of line and color because beauty of line and color has come to be considered, and I think rightly, a necessity in a motor car today. Equally important is the mechanical beauty of the engine. Let us not forget this mechanical beauty when we consider the beauty of the new Ford.

by  
**HENRY  
FORD**

"The new Ford has unusual speed for a low-price car because present-day conditions require unusual speed.

"The world moves more quickly than it used to. There are only so many hours in the day and there is much to be done.

"Fifty and sixty miles an hour are desired today where thirty and forty would have satisfied in 1908. So we are giving you this new speed.

*Quiet and smooth-running  
at all speeds*

"The new Ford will ride comfortably at fifty and sixty miles an hour. It has actually done sixty-five miles an hour in road tests.

"Since modern conditions demand more speed, they also demand better brakes to balance this speed. So we are giving you four-wheel brakes in the new Ford.

"The new Ford will be quiet and smooth-running at all speeds and you will find it even easier to handle in traffic than the old Model T Ford.

"The new Ford has durability because durability is the very heart of motor car value. The Ford car has always been known as a car that will take you there and bring you back. The new Ford will not only do that, but it will do it in good style. You will be proud of the new Ford.

"THIS new Ford car has not been planned and made in a day. Our engineers began work on it several years ago and it has been in my mind much longer than that. We make automobiles quickly when we get in production. But we take a long time planning them. Nothing can hurry us in that. We spent twelve years in perfecting our former Model T Ford car before we offered it to the public. It is not conceivable that we should have put this new Ford car on the market until we were sure that it was mechanically correct in every detail.

"Every part of it has been tested and re-tested. There is no guessing as to whether it will be a successful model. It has to be. There is no way it can escape being so, for it represents the sum total of all we have learned about motor car building in the making of 15,000,000 automobiles.

*The new Ford will sell at  
a low price*

"The price of the new Ford is low in accordance with the established Ford policy. I hold that it is better to sell a large number of cars at a reasonably small margin of profit than to sell a few cars at a large margin of profit.

"We never forget that people who buy Ford cars are the people who helped to make this business big. It has always been our policy to share our profits with our customers. In one year our profits were so much larger than we expected that we voluntarily returned \$50 to each purchaser of a car. We could never have done that if this business had been conducted for the sole benefit of stockholders rather than to render service to the public.

"No other automobile can duplicate the new Ford car at the Ford price because no other manufacturer does business the way we do.

*"We make our own steel—we make our own glass—we mine our own coal—we make virtually every part used in the Ford car. But we do not charge a profit on any of these items or from these operations. We would not be playing fair with the public if we did so. Our only business is the automobile business. Our only profit is on the automobile we sell."*

"WE ARE able to sell this new Ford car at a low price because we have found new ways to give you greater value without a great increase in our own costs.

"We did not set out to make a new car to sell at such-and-such a figure. We decided on the kind of car we wanted to make and then found ways to produce it at a low price.

"The new Ford car, as I have said, will be officially announced on Friday of this week. In appearance, in performance, in comfort, in safety, in all that goes to make a good car, it will bear out everything I have said here. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

## METHODIST PASTORS GIVEN ASSIGNMENTS

Continued From First Page.

J. H. Allison, who goes to Commerce, Rev. R. A. Edmondson, pastor of St. John church this year, swaps places with Rev. V. E. Langford, who has been at Epworth church.

At the universal request of every department of Wesley Memorial church Rev. Marvin Williams is returned to that congregation for his fifth year's pastorate.

Rev. B. L. Davis, who has been at Mount Vernon church, is transferred to the Augusta Asbury church, and is succeeded at Mount Vernon church by Rev. A. J. Sears, who has been at Norcross and Dorchester.

Dr. S. T. Senter, of First church; Dr. W. L. Duren, of St. Mark church; Dr. S. R. Belk, of Grace church; Dr. Wallace Rogers, of Trinity church; Dr. Marvin Franklin, of Park Street church; and Dr. E. F. Fraser, of St. Paul church, are all returned for another year.

### Final Details.

The Monday session of the conference gave attention to final details of conference routine. Bishop Reed asked the conference for the room in which John Wesley stayed while a student at Wesleyan college, England. The bishop said he had been asked to raise \$200 in his episcopal district. In the offering taken Monday there was something over \$100.

The conference body gave hearty applause when the statistics secretary, Rev. O. E. Smith, announced that the Woman's Missionary society in this conference territory had this year raised the sum of \$185,000 for their lines of work.

Rev. Marvin Williams, clerical host of the conference, stated that Wesley Memorial church was delighted to have had the pleasure of entertaining the conference, and hoped that the opportunity would again be afforded them.

The conference adjourned without specifying a place for meeting next year; but it is generally understood that Atlanta will be selected by the entertainment committee, of which John A. Mangum is chairman.

## MILLER, 5 WOMEN HELD IN MURDER

Soperton, Ga., November 28.—(AP) Frank Miller was accused in the verdict of a coroner's jury here today of the murder of Clayton Newsome, member of a prominent family in this section, who was slain recently at the home of Mrs. Emma Coates, who occupied house with her four daughters on the Newsome plantation near here.

The verdict also held that Mrs. Coates, three of her daughters, Alene, Louise and Johnnie, and Mrs. Iva Mae Allen, were accessories before the fact.

Miller and the women were arrested shortly after the slaying and since have been held in jail to await the outcome of the coroner's investigation. The date of their trial has not yet been set.

Newsome was slain by a charge of a shotgun when he went to the Coates home with friends early one Sunday morning and called for Alene. When she opened the door to ask him the purpose of his visit at that hour, he was said to have forced his way into the home, where he was shot down.

Mrs. Coates and her daughters testified at the inquest that Miller, who was a friend of Alene, and who was spending the night in the Coates home, snatched up a shotgun and fired it at young Newsome when the latter sought to enter the house. Miller, however, claimed he was at the home of a friend the night of the slaying and knew nothing of it until the following day.

The coroner's verdict read: "We, the jury, find that Clayton Newsome came to his death as a result of gunshot wounds; that he was shot at the house of Mrs. Emma Coates by Frank Miller and that the same was murder. That Frank Miller was the principal and that Mrs. Emma Coates and Mrs. Iva Mae Allen, Misses Alene, Louise and Johnnie Coates, were accessories before the fact."

## FLORIDA SOLONS MANDAMUS WRIT UP TO HIGH COURT

Tallahassee, Fla., November 28.—(United News.)—The Florida supreme court will consider a writ of mandamus Tuesday filed by three state senators seeking to compel Secretary of State H. Clay Crawford to accept their fees as candidates for the governorship.

Crawford refused to accept the fees of Senators John S. Taylor, of Largo; W. A. McEwen, of Leesburg; and John W. Watson, of Miami because they were members of the 1927 legislature which increased the governor's salary from \$10,000 to \$10,000 a year.

In his refusal Crawford challenged the right of the senators to sit in the governor's chair if any of them were members of the legislature which increased the salary. The senators filed their mandamus to obtain a supreme court ruling on the law and to compel acceptance of their fees.

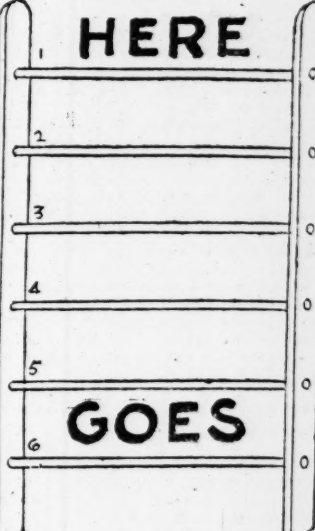

The company disclaims responsibility for the collision, contending that \$2,000,000 asked by the government for the loss of the submarine, only \$263,000, the value of the steamer, can be collected under admiralty law.

RESTORATION BILL  
TO BE CONSIDERED**  
Washington, November 28.—(United News.)—The bill providing for restoration to the original owners of \$250,000,000 in alien property still held by the United States will be considered by the house ways and means committee Thursday or Friday. Chairman Green announced today.

With completion of the tax bill in a few days, the alien property bill, Green said, would be the unfinished business of the committee. Passage of the bill during the coming session of congress is virtually assured, as both major parties are agreed on the advisability of the measure.

# Lewis, Munn Meet Tonight

## Three Events Are on Card At Auditorium

Local Ear Scramblers Will Open Show With Bout at 8:30.

Wayne "Big" Munn, who supported a family while working his way through Nebraska university and yet found time to star on the football team, meets Ed "Strangler" Lewis in the two-hour feature of Matchmaker John Contos' wrestling card at the city auditorium tonight. The main event will be flanked by two good preliminaries, the first of which starts at 8:30 o'clock.

Advance sale for the show tonight has been heavier than for any other card this season, and Matchmaker Contos believes that he will have a bigger house than he has had since Rough Richard Daviscourt met Champion Joe Stecher about this time last year.

There is no question but what Munn is an interesting figure, both in and out of the ring. He stands 6 feet 6 1/2 inches tall and weighs 238 pounds. In addition to those physical advantages he has a reach said to be even longer than that of Jess Willard, former heavyweight boxing champion of the world.

Munn's height will give him an advantage that few wrestlers have in their endeavor to restrain Lewis from applying his famous headlocks, which many of the mat stars term "dangerous and cruel." However, Lewis is liable to find some way to get his home-coming arms around the former Nebraska star's head.

When Munn first took to wrestling it was with the idea that the best possible attack was via brute strength. Since that time he has learned that such tactics do not go so well, when pitted against a clever wrestler. So Munn has improved his knowledge of the game so effectively that he has been beaten only twice in his last eighty-five mat engagements.

Munn specializes in a half Nelson-erect hold, which he uses to slam his opponents to the mat with considerable force. In addition to that, he is versatile both in the application and breaking all holds common to the game.

Preliminaries Good. The preliminaries promise to rival the main event in excitement, provoking "Scotty" McDougal, who proved to be such a rough customer in his match here with Jim Browning, is pitted against Jack Washburn, who is good natured only so long as his foes stick to clean and fair tactics.

Local rivalry flares up in the opening match between Tom Fellers of the Georgia Railway and Power company, and H. L. Anglin, of the city fire department. The latter defeated Fellers at the power company gym on October 18, and since that time the loser has been helping for a return match, which has finally been granted, with no holds barred.

Box Office Closes at 7. The box office at the auditorium will open at 3 o'clock this afternoon, and tickets for tonight's wrestling match may be secured there, it was announced Monday night by John Contos.

Contos also said that each preliminary would last one hour, and that the main bout would start immediately after the prelims.

## TECH AND GEORGIA TIED IN GAMES WON AND LOST

BY CHARLES E. MARTIN.  
Athens, Ga., November 28.—(Special.)—Figures, it is said, make very dull reading. But anything connected with a Georgia-Tech game will arouse interest anywhere in this Empire State, and it being just before the battle, perhaps a few Tech-Georgia figures would not be amiss at this point.

According to the figures, if they mean anything, Georgia is due to repeat and bring back this year to Athens a southern conference title and permanent possession of The Constitution cup.

In the first place, victory has swung toward the two opponents in cycles and Georgia should have swung into line of her cycles of victories with the win last fall. Since the teams began playing back in 1893 neither team has won a single year victory. That is every victory has either been preceded or followed by another victory and the shortest string of victories recorded was made up of two at the very beginning, when Tech won in 1893 and 1894. Each school has a string of five straight victories to its credit, though Georgia's string is a tie game sandwiched in between the fourth and fifth.

Bulldogs Due to Win. Taking the precedent of linked victories Georgia is due to win to follow her victory last year after Tech won in 1916 and 1925, consecutive play-

In 1925, a silver loving cup was offered by The Constitution to the team winning two out of the next three games. Each team has won one game since that time, and Saturday's winner will gain permanent possession of the cup.

Following Tech's first two victories back in the dawn of the series Georgia hung up wins in 1896, 1898 (no game played in 1897), 1899, 1900 and 1903. No game was played in 1901 and the 1902 game was a tie.

About 1904 Johnnie Heisman came to Tech and the tide turned to the Techsters, the Jackets winning in 1904, 1905, 1906, 1907 and 1908, with no game in 1910. In 1910 Bob McWhorter appeared in the Georgia lineup and fortune again favored the Red and Black for four years before again becoming affectionate with the Engineers. In 1914 Tech started another string of victories which she ran up to three, with a tie game for 1915, before surrendering the palm to Georgia in 1920. During the time from 1916 to 1925 no games were played between the two schools.

Tech May Set Precedent. Georgia won last year and should lose this year a precedent that has good since 1893, 34 years, will be broken since no team has ever won a single year game. That much

## BOB SHAWKEY PETRELS BEGIN AND REUTHER PREPARING ARE RELEASED FOR MIAMI

By Leased Wire to The Constitution and The Chicago Tribune.  
New York, November 28.—Two of baseball's outliners were given their unconditional releases by the New York Yankees today—Robert Shawkey and Walter Reuther, both pitchers, but right and left handed, respectively. Each has been in the major leagues for more than ten years and are free to join any club that wants their services.

Shawkey, if he fails to sign elsewhere, may be engaged by the Yankees, in the role of pitching coach. Reuther is 34 years old and has been in the majors eleven years. In 1917 he was with the Chicago Cubs, later with Cincinnati, which traded him to Brooklyn for Babe Marquard. In 1927 Reuther was sold to the Washington Senators. The Yankees needed a southpaw in 1926 and got him at the waiver price.

Shawkey will be 37 on next December 4. He has been in the majors 15 years. He broke in with the Philadelphia Athletics in 1915.

## Bartley Dies.

New York, November 28.—(United News.)—Frank J. Bartley, inventor of the portable boxing ring, died here today of heart failure after an illness of two weeks. He was 52 years old.

The portable ring invented by Bartley has been used for practically every championship fight in the last six years.

## Ringside Presents Star Card

Walk Miller and Battling Bud To Officiate at Bouts Tonight.

Three 10-round matches, each of which is considered as promising as the other, comprise the second pugilistic offering of the Ringside Athletic club, at Mitchell and Broad streets, tonight. A four-round preliminary will open the card.

Matchmaker Jimmy Mayson says that he is prepared to take care of a few more than 1,000 fans and he is of the opinion that his capacity will be taxed tonight. The seats are arranged so that there are 800 in the ringside sector, the remainder being general admission seats.

A good scrap is expected between Tommy O'Rourke, of Atlanta, and Dixie Sullivan, of Birmingham, as the winner has been promised a shot at Stiles Attaway, the latest and most successful of Atlanta's ring stars. O'Rourke and Sullivan are evenly matched and each is keen to win the right to meet Attaway.

No less exciting should be the scrap between Benny Regan and Chick White. They met last Tuesday night, the bout ending in the eighth round, when Regan accidentally fouled his opponent. Both boys were displeased by that finish and agreed to fight it all over again.

A tough versus experience will be featured in the other 10-rounder, which Freddie Boorde, the veteran, will attempt to end Casey Jones' sensational winning spree. Jones registered his tenth straight victory last week, when he kayoed Johnny Vickers, of Buckhead.

Walk Miller and Battling Bud will referee the bouts.

## Pirates Trade 'Kiki' Cuyler To Chicago

Adams and Scott Go to Bucs in Deal for Great Gardener.

Pittsburgh, Pa., November 28.—(P.)—Hagen (Kiki) Cuyler, crack outfielder and center of baseball's most sensational controversies, tonight was traded by the Pittsburgh Pirates to the Chicago Cubs in exchange for Earl (Snicker) Adams, second baseman, and Floyd J. (Pete) Scott, outfielder.

Sam Watterson, secretary of the Pittsburgh Baseball club, announcing the trade tonight, said that it had been arranged on a straight player basis with no money involved. Pittsburgh was represented in the negotiations by President Barney Dreyfuss and Manager Donie Bush, while the Chicago negotiators were President William Weck and Manager Joe McCarthy.

Trading of Cuyler had been forecast in the middle of last season when he and Bush became involved in a controversy that resulted in the speedy outfielder occupying the bench for most of the National league season and during the entire world's series.

To Strengthen Club. Pirate officials regarded the trade certain to strengthen the team for the 1928 season. They pointed out that the National league champions were in need of a good second baseman and that Adams was regarded as one of the best in the circuit.

Cuyler came to Pittsburgh from Bay City, Mich., in 1921, but was sent back for further seasoning the following year. He returned to the Pirates in 1923 and became a regular the next year. He batted .357 in 1924, .357 in 1925 and .321 in 1926. This year he compiled a batting average of a few points over .300 and led his club in stolen bases, although he appeared in only a few games. He is one of the fastest men in the league and during his service with the Pirates consistently ranked with the leaders in stolen bases.

Another practice is slated for this afternoon but it is not thought that a scrimmage will be held until the middle of the week.

## Giants To Train At Augusta, Ga.

New York, November 28.—(P.)—The New York National league baseball club will train at Augusta, Ga., next spring. Manager John J. McGraw announced today. This decision was reached after the city council of Augusta voted to install a training field, clubhouses and showers. For the past four years the Giants have pitched their camp at Sarasota, Fla.

The Giant players will report at Augusta March 1, but the battermen will work out at Hot Springs, Ark., starting February 15.

## P.G.A. Announces Tournament Dates

Detroit, November 28.—(P.)—The opening date of the inaugural golf championship tournament of the Bahamas Islands was fixed today as March 2 by the Professional Golfers' association at its annual meeting here.

The tournament, which will last four days, will be held at Nassau Country club, with \$3,000 first prize stakes.

The association also will sponsor the first Bahama open championship with \$1,000 prize money, it was announced. The open will precede the main event during the same week.

Three bids will be considered by the association tomorrow in awarding the 1928 national tournament. French Lick Springs, Ind.; Fresh Meadow club, of New York, and Baltimore Country club have entered bids.

## Fla. Tennis League Will Be Discussed

Orlando, Fla., November 28.—(P.)—Plans for the organization of a central Florida Tennis league will be discussed at a meeting here tomorrow, to which eight cities have been asked to send representatives. Invitations to send delegates to the meeting have been sent Leesburg, Daytona Beach, Deland, Sanford, Mount Dora, Clermont and Eustis, while a large Orlando delegation is expected to attend. Proposed plans for the league play call for inter-city matches every Sunday, play to start early in December.

# Reader Interest that brings Results

...results even greater than you  
pay for in Circulation

**B**UYING advertising space in The Atlanta Constitution, you naturally expect greater results because of The Constitution's great lead in circulation--but you actually get *far greater* results than this circulation lead would indicate. Why? Principally because of these three "reader elements" in Constitution circulation:

**READER INTEREST**—People read The Constitution *carefully*—from "cover to cover"—they don't merely glance at a few "features" and cast it aside. People like The Constitution for the completeness of its news service and interesting editorial articles. Your advertising copy is *seen*!

**READER CONFIDENCE**—For 60 years The Constitution has kept faith with its readers. They believe in the paper! They appreciate its progressive attitude in civic matters. And because they have confidence in the paper—they have confidence in values they see advertised!

**READER RESPONSIVENESS**—Readers of The Constitution are not just passively interested in your advertising. They act! They respond at once—they buy! The unusual "pulling power" of The Constitution is evidenced by its continued and increasing use by advertisers—over a period of years.

## The Space Buyer's 10 Demandments

Every buyer of advertising space should consider these ten points in analyzing newspaper advertising values.

I Reader Interest	VI Trade Area Coverage
II Reader Confidence	VII Total Coverage
III Reader Responsiveness	VIII Character Circulation
IV Home Circulation	IX Steady Growth
V City Coverage	X Service

Test The Constitution by these "Ten Demandments." Test other papers. Get the facts—then buy your advertising space!

Compare The Constitution's circulation with that of other Atlanta newspapers—Then test it in your advertising! You'll be amazed at the results Constitution circulation will deliver to you!

## NO MORE DISAGREEABLE CRAMPING AFTER MEALS

"I HAVE been a user of Black-Draught for fifteen years," says Mr. W. S. Swink, a prominent business man in Luricha, Ky. "For some time I used to have a cramping feeling in my stomach after meals, and I would feel very uncomfortable. The first Black-Draught I ever took was when I lived in Lebanon, Oregon. I had this trouble after meals. I read of Black-Draught and began taking it. I noticed that it relieved me, and by taking very small doses after meals, I did not have that disagreeable feeling."

"From that time on until now I have taken Black-Draught whenever I was in need of a laxative, or when I had indigestion."

"I used to get very constipated, and Black-Draught helped that condition. I cannot begin to tell the many times I have taken Black-Draught, whenever I felt bad. I certainly can recommend it."

Thousands of others have written to tell how many disagreeable symptoms, due to constipation, have disappeared after they had taken Black-Draught. It is a natural remedy, composed of selected medicinal roots and herbs, and put up by modern, scientific, accurate methods.

The great popularity of Thedford's Black-Draught is itself an indication of the satisfaction it gives its millions of users.

Have you tried it?

For sale by all druggists, 25 doses, 25c.

## Maj. Charles W. Hubner Paid Tribute at Club Meeting

"There is no fate but God's Almighty Will." This was given as his favorite line from his poems by Major Charles W. Hubner to Mrs. B. H. Hill, chairman of literature for the Atlanta Woman's club, in an interview at his home on Thanksgiving day.

This was most interestingly told by Mrs. Hill Monday afternoon at the Woman's club when the literature division presented a program of the writings of Major Hubner.

When asked to name his favorite poem, Major Hubner likened this to asking a father to name his favorite child and he characterized poems as "children of the mind." But this line, which is part of a poem regarding which Major Hubner has a much

## Garden Club Hears Dr. Bartsch Talk on 'Birds and Wild Flowers'

Dr. Paul Bartsch, assistant curator of the Smithsonian institution, gave a slide lecture on "Birds and Wild Flowers" before the members of the Peachtree Garden club Monday afternoon at the Piedmont Driving club, in which he stressed the importance of preserving and planting mountain laurel and rhododendron in the gardens of southeastern America. "There is really danger in these plants being exterminated," said Dr. Bartsch, who is a noted authority on this subject and believes that southern gardens will be made more attractive if these flowering plants are used to beautify formal and informal gardens. "Conservation is a serious subject and should be seriously considered in the south, where the land is so fertile and the climate so favorable for the growth of these plants," he said. Dr. Bartsch, in sounding a warning note, urged the Garden club members to work towards launching a campaign to safeguard the mountain laurel and rhododendron. "Plants are as sensitive as people and demonstrate their unhappiness if not placed in proper surroundings," concluded this famous lecturer.

**Establish Stations.** The second part of this interesting and valuable lecture was to encourage the establishing of feeding and watering stations for birds during the winter months when gardens are barren, and have ceased to give joy for the flowering season has passed. In 1902, Dr. Bartsch started the Bird-Banding society, in which human beings studied and learned the migrations of birds. An aluminum band was placed around the leg of birds trapped in

## THE CONNOISSEUR

Mr. Van de View, uplifted on the pinions of delight In the silver clouds of fancy on a soul-inspiring flight, Has reached the shining pinnacle of happy exaltation, and with Mr. Crouse will be accorded a cordial welcome by her many friends here.

As a means of entertaining, he indorses it completely, And when a lady near him asks a question very sweetly, He only clasps his hands and looks her blankly in the face Without so much as glancing at her collar made of lace.

For all of his attention and esteem is concentrated On the pianist who keeps him so artistically elated; And he doesn't even care about a lace and velvet frock, So lost in his enjoyment of Mendelssohn and Bach.

And when the concert's over and he's ready to depart, He decides piano music is his favorite form of art, And he compliments his hostess on the musical so fine, Never mentioning the lace upon her frock in surprise line.

## I Have Said in My Heart

BY IDAH MCGLONE GIBSON. FREEDOM

There is one subject of which writers, speakers, thinkers, grandfathers, grandsons, great aunts and great uncles never tire, and that is the thing that women should or should not do to allure the other sex. And after getting them what must they do to keep them? Says the novelist, who is touted as knowing much more about women than they do themselves, "A woman must never let a man see her when she is not perfectly dressed." Says the society matron, "A woman must always prove a splendid advertisement of her husband's property." Says the preacher, "A woman must never paint her face or rouge her lips if she would bring a good man to her feet." Have you ever noticed that nobody has ever asked whether or not the prize was worth the game that one played for it so passionately? One has only to read the annals of the divorce courts to see that even after a woman has corralled one of those splendid animals called men who does not always know what to do with him, she is left with a lot of trouble on her hands. Just why all the smiling, all the pretty dressing, the particular grooming, the flattery, the angling, should be on the part of the women, the average woman had to have a man to support her—when she could go nowhere without a male escort, this might be woman's work, but today, with every avenue of work or pleasure that is open to men is likewise a thoroughfare for her, why not be free of that awful tyranny that kept you asking, "Do you think I'll like it?" I remember having a woman friend who was particularly beloved by one of the most intellectual and charming men that I knew. To me they seemed absolutely suited to each other. They were constantly together. I used to see them dining almost every night at the smart hotels, or at the theater. The man was a figure in American politics and the woman well known in letters. "I've got to have a new evening dress," said she, "it's a very expensive dress for me. I can hardly wear the same gown twice, for he always wants to walk into a dining room a little behind me and note the admiration that is given me. I must always be perfectly dressed and perfectly beautiful. If I allow myself to get shabby I am lost." Why do you not marry him?" I asked. "He is rich enough to pay for any extravagance he may demand of you in the matter of clothes." My friend laughed and then she sighed. "I could not keep up to the mark."

Memo: Before you mortgage your freedom be sure that you are doing it for something that will give you more pleasure.

## Fashion Authority Discusses Style Trend in Rich's Tea Room

BY MAINER LEE TOLER. "Cover up your knees, girls, cover up your knees," said Tobie, one of America's foremost style authorities, speaking on present fashion trends to several hundred Atlanta women Monday afternoon in M. Rich & Bros' tea room. "The uneven hemline now featuring so many of the exquisite evening gowns is the beginning of a lengthening of skirts," said this fashionable New York stylist. "Although there will be no extreme drop in the skirt length, the advance spring fashions declare that the smartly dressed woman will wear a somewhat longer skirt than has been in vogue for the past two seasons. "How styles originate" constituted a greater part of the stylist's talk and the absolute necessity of one part of a costume to the other. It was interesting to learn how the smartly dressed American and English women who are seen at the famous European watering places wearing the demurest of fashions set the style for America. Spring Shades. The lighter shades of navy blue, the natural Kashia shades and those exquisite blues, green, blue and green from the aquamarine will be the leading colors used in the creating of the early spring models, according to Miss Tobie Davis, known in America and Europe as "Tobie." In her style trend discussion she emphasized the blending of shades, stating that the well-dressed woman wears hats, shoes, hose, bags, gloves, handkerchiefs and even jewelry to harmonize with her costume. Tobie believes that midday can combine several shades in her ensemble if she is careful of their blending. Costume jewelry will continue more popular than ever, said Miss Davis. Thousands of housewives have found how to save two-thirds of the money usually spent for rough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for results. It gives immediate relief, usually stopping an ordinary cough in 24 hours or less. Get 2½ ounces of Pinex from any drugist, pour it into a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified honey, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time. It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs, loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, hoarseness or bronchial asthma. Pinex is a special and highly concentrated compound of genuine Norway pine extract and palatable guaiacum, known the world over for its healing effect on membranes. To avoid disappointment, ask your drugist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

## The Secret

The real secret of the surprising goodness of Heinz Oven-Baked Beans is that they really are baked in ovens, and like the best home-baked beans, are nut-brown, mealy and digestible, with a flavor that brings the plates back for more.

Beans that aren't oven-baked can't be labelled "baked". For truly baked beans look for the Heinz label that says "Oven-Baked". The taste is the test.

## PINEX for Coughs

# The Woman in the Case

BY LOUIS TRACY

John Arden, returning to his room at the Palace hotel, London, in the early hours of the morning, breaks his key in the lock, and is given a room in a luxurious suite by the night watchman, who assures him that the rooms are unoccupied. He is about to retire when two women enter the apartment. One is addressed as Emma and the other as Mrs. Sinclair. Arden, hiding, hears them speak of the sudden death of Lord Farndale. With out being observed, he lets himself out of the apartment. The next morning he reads of the mysterious death of a peer. A little later he sees Emma on the street and is not far from her when she is knocked down by a motorcar. Her dress is torn, and he offers her his raincoat. She accepts it, and he offers to get her a taxi, telling her that they live in the same hotel. She tells him that she and her aunt have left the Palace, but tells him she will drop him at the hotel.

Later Arden learns that the police know that Mrs. Sinclair and Emma called on Lord Farndale just before his death and they are trying to locate the two women, watching all railway exits. Arden sees the two women at one of the railroad stations and, behind Mrs. Sinclair's back, persuades Emma to come away with him in order to avoid arrest.

## INSTALLMENT VIII.

### Emma Tells Her Name.

Meanwhile the two in the taxi diverged at once from the implied understanding that there would be a full and free discussion of a somewhat astonishing incident. A woman's weakness may prove her best armor. For some reason Emma began to cry, whereupon Arden cast all other considerations to the winds in his anxiety to reassure her.

"O, I say," he bleated, "don't give way now! You are quite safe. You are, really. What I mean is that I am acting entirely in what I believe to be your best interests." "Yes, I know," she sobbed, making a valiant effort to recover self-control. "I'm not usually a cry baby. But my world has gone all wrong during the last few days. And it is not my fault. I haven't hurt anybody, nor wanted to. Last night when we came away from Lord Farndale's house, I was sure he was ill—but I could not tell he was dying. And now the newspapers say that he was murdered!"

Arden was glad he had not been compelled to use that ugly word himself. "That is just why you are in such a state with me now," he said, "and I don't being taken off to a police station by some stupid policeman in plain clothes. I happen to know you had nothing to do with Lord Farndale's death."

"You are very kind, Mr. Arden, but you don't understand."

"I do," he insisted. "I was in suite E at the Park Palace hotel when you and Mrs. Sinclair came in at half past two this morning. I heard every word that passed until your bedroom door was closed. Hullo!"

"Sheer bewilderment dried Emma's tears. "You were there?" she cried.

"Yes. Behind the screen at the end of the passage."

"It was just one of those accidents which cannot be avoided. Accidents never can, you know, or they wouldn't happen. You can sidestep a danger, which is exactly what you are doing now, but not an accident. I was put into an empty room there by the night watchman because the lock in my own room had jammed."

"Which room?" Mrs. Sinclair was suspicious when she found the lights turned on, and examined the place thoroughly.

"I was in the first room on the left."

"But she looked in there."

"Yes. Fortunately I was well, or most of my belongings were hidden by the bed."

"But how did you come to be behind the screen?"

"I was at the end of the suite when you two arrived. I was just having a peep at the palatial fixtures—like a cat looking at a kitten."

"I wonder you didn't meet us in the passage."

"I couldn't. It's this way. I was thinking of having a bath."

"O!"

"Yes. But what does it matter that I should have behaved like an idiot? I am only trying to persuade you that I am a witness in your behalf—but for one than you realize, because Mrs. Sinclair, thinking herself alone when you had gone to your room, showed something of her real nature by guessing that if she was not careful you might spoil everything. That remark supplied the clue to the whole situation. She was working on some scheme for her own benefit while keeping you completely in the dark. It strikes me she had the same thing in mind in trying to cart you off to Paris, or wherever you were making for tonight. She will not have a nice job in persuading Scotland Yard that her sole business in life is to do good."

"Scotland Yard? You have mentioned that place more than once."

What or where is Scotland Yard?

Arden gulped hard before he answered.

"It happens to be the headquarters of the criminal investigation department," he said, when he dared trust his voice. "Those lads—de lads, too. I assure you. Owing to the affair at Hyde Park corner this morning, they got onto my track quite enough, but, luckily for you, you did not tell me where you lived in Cromwell road, so I couldn't give them the tip, which I should have been bound to do otherwise. But I keep forgetting the one important thing for the moment. Have you dined?"

"No. Mrs. Sinclair panicked so after reading something in a newspaper that we had to use every second for packing. We meant having a sandwich at Victoria and some supper on board the steamer."

"This affair begins at last to arrange itself, as the French say. I left a dinner party in the hope that I might find you. We'll join it now."

Thus it came about that the taxi's course was diverted from the Admiralty's arch onward, while it is obvious that Arden's knowledge of the history and antecedents of the young lady he was so eager to rescue from the toils of the law had not been increased by one iota during the brief journey.

A remarkable feature of this sudden partnership was the absolute trust in the man shown by the woman. Being a healthy young person, Emma was by no means disinclined for a meal, but she raised a candidly feminine protest when she heard where the banquet would be served.

"O," she said, "I'm not dressed for a place like that."

"It's quite all right. I'm taking you to the grillroom, which is not so much at this restaurant. And my friends are two fellows just like me. One of 'em, Andy Burke, would make you smile while waiting for the dinner. He knows all about this business, too, and will probably suggest or do something crazy which will turn out the best possible way of dealing with it. . . . Well, here we are. We can leave your traps in the cloak-room."

"Yes, but I really must have a minute to dab my eyes with cold water. I cannot go into a brilliantly lighted dining room looking as though you and I had just quarreled bitterly."

The respite enabled Arden to review the progress thus far in an amazingly successful campaign. Not for an instant did he dream now of drawing back, but he saw beyond dispute that he must not entangle Burke and the other man, an ex-gunner named Davidson, in the risky undertaking to which he personally was committed. So, when Emma rejoined him, looking remarkably sprick and span, he raised the point.

"Do you think I ought to tell these lads who you are?" he said.

"Please yourself," she said. "For the time being I am under your orders."

"Are you content to figure as my sister?"

"Is that the best way out of a difficulty? Of course, I invent the relationship at the station. It was the first thing that came into my head, and I had to say something to stop those men from being suspicious until we got away. But—among your friends—is it wise to carry on the deception? Indeed, is it even justifiable?"

"Perhaps not. In that case, Miss Emma, I must now ask your name?"

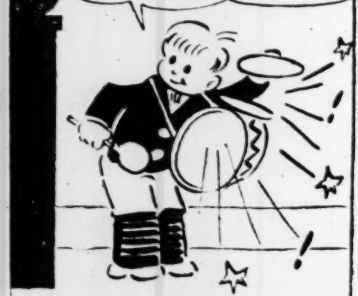

"Why not? It is Bermore—Emma Denison Bermore. About ten months ago—in far off Buenos Aires—I was informed that I was Lord Farndale's granddaughter."

Instructing Mr. Loewenthal his chief investigator to organize a staff of trained investigators Andy prepares to open the flood gates—and send forth a tidal wave of dollars to wipe poverty from the face of the earth—

MY CHIEF INVESTIGATOR, MR. LOEWENTHAL INFORMS ME THAT HIS STAFF WILL BE PREPARED TO REVIEW ALL APPLICATIONS— FIRST COME— FIRST SERVED—

WHAT DO YOU MEAN— INVESTIGATOR? WHY DON'T YOU SEE EVERY APPLICANT YOURSELF— AND BE SURE THEY ARE DESERVING BEFORE YOU PART WITH A PENNY—

IF I HAD AS MANY LEGS AS A CENTIPEDE— AS MANY ARMS AS AN ARSENAL AND COULD BE IN A THOUSAND PLACES AT THE SAME TIME THAT WOULD BE A GREAT IDEA— BUT I'M ONLY ONE MAN— AND I'M GOING FROM HOUSE TO HOUSE WITH A BILLION DOLLARS UNDER MY ARM LOOKING FOR A CUSTOMER— A COMMANDER IN CHIEF IS TOO BUSY LEADING HIS ARMY TO HAVE ANY TIME FOR PEELING POTATOES OR DIGGING TRENCHES—

HA HA! NAPOLEON GUMP IS GOING TO BE COMMANDER-IN-CHIEF— AFTER THE FIRST SKIRMISH THERE WILL BE A BILLION DOLLARS DEAD OR MISSING— HE'S JUST THE KIND OF A GENERAL TO TURN A GREAT VICTORY INTO A GLORIOUS DEFEAT— THE GOLDEN GOOSE WON'T HAVE A PIN FEATHER LEFT AFTER HE SHOWS THE FIRST GOLDEN EGG—

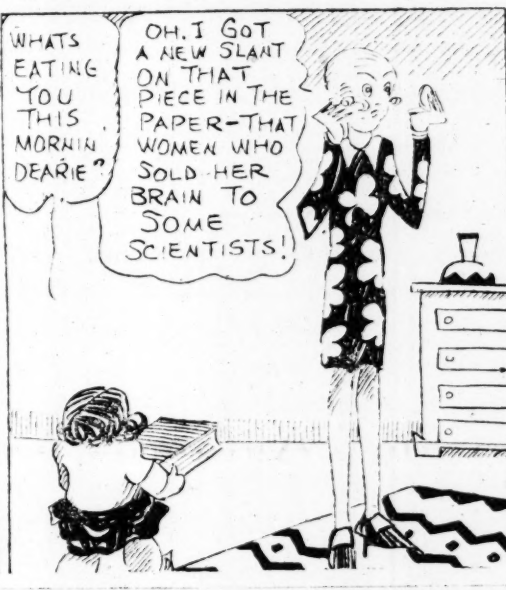

## MOON MULLINS—MUSHMOUTH AND HIS EVENING DRESS SUIT

MISS SCHMALTZ AND MR. MULLINS HAVE LOOKED HIGH AND LOW TO NO AVAIL FOR THE OLD SUIT OF CLOTHES IN WHICH SHE SEWED \$2,000 WORTH OF SECURITIES FOR SAFE KEEPING, WHILE MR. MULLINS WAS HELD CAPTIVE BY A COUPLE OF GORILLAS WHO SEEM TO BE DEEPLY INTERESTED IN ITS WHEREABOUTS.

# FIVE INJURED IN CRASH SERIES

Mrs. L. Cantor, of 570 Spring street, was knocked down and slightly injured by an automobile driven by Harry Asbestos, of 696 Piedmont avenue early Monday night at Pryor street and Edgewood avenue, according to police reports. Mr. Asbestos reported to police that he was driving north on Pryor street at the time of the accident. He picked Mrs. Cantor up and took her to her home. No case was made.

Lucius and Noman Davis, both of 40 Bird street, were skinned and bruised when a motorcycle, on which they were riding, crashed with an automobile driven by Frank Haynes, of Marietta, Ga., at Bell street and Auburn avenue, according to police reports.

S. Y. Jamelson, of 32 West Twelfth street, was taken to Government hospital, No. 48, on Peachtree road, in the private ambulance of Blanchard Brothers early Monday night as a result of injuries received when caught between two automobiles at Peachtree and Eleventh street. He was not badly hurt.

H. Fader, of 142 Ashby street, who was driving west on Edgewood avenue at Butler street Monday night, was run into by an unidentified negro. The negro failed to stop his car after the crash, and Mr. Fader gave chase in his car. The negro abandoned his car at the intersection of Fort and Ellis streets and Fader waited until police took charge of the abandoned car.

# MRS. LUCILE CRAWFORD PASSES IN PEORIA, ILL.

News of the death of Mrs. Lucile Crawford, of Peoria, Ill., was learned here by friends Monday. Mrs. Crawford died at her residence last week after a protracted illness. Mrs. Crawford is the eldest daughter of Mr. and Mrs. Mark D. Batchelder, and has a wide circle of friends in Atlanta, where the family moved for many years before moving to Peoria.

# FT. LAUDERDALE, FLA. POSTOFFICE HELD UP

United States Postoffice Inspector Joe Johnston, in charge of the Atlanta district, stated Monday night that he had received a communication from the postmaster at Fort Lauderdale, Fla., that the Greek Orthodox church, in charge of Progresso station in Fort Lauderdale, had been held up and robbed of approximately \$200 early Monday night. Only currency was taken, according to messages received here. No details of the robbery were received, Mr. Johnston stated.
